- Bring an open mind, positive attitude, and be ready to ask questions

## Academy Objectives

The primary objective of the Clayton Police Summer Youth Academy is to educate and inform teens about the many aspects of police work.

The academy is designed to give the participants exposure to various police situations, and to explain how and why officers respond to and handle different situations.

There's interesting and varied classroom instruction, as well as exciting hands-on practical exercises that will allow teens to assume the role of a police officer and be evaluated on how they handle different situations.
